	\$235,853 36
Showing a balance, and remaining in the Treas- ury, of	21,369 74
	<hr/>
Making,	\$257,223 10

The City Debt on the first day of February, 1856, as per account of last year, was	\$254,865 95
Of this sum there has been paid during the year, when falling due,	61,000 00
	<hr/>
Reducing the debt to	\$193,865 95
And this has been increased by loans authorized, for a renewal of a portion of the debt,	52,175 00
	<hr/>
Making the total City Debt at this time,	\$246,040 95

The times when this sum becomes payable, may be seen by referring to the schedule of the City Debt, accompanying this report.

There has been received from the sales of land, the sum of \$11,115 92; and of this sum, there has been appropriated towards the reduction of the City Debt, in conformity to a vote of the City Council, \$8,825; and the balance, except the amount paid for interest, now remains in the Treasury.

There remain in the Treasury, notes of sundry individuals secured by mortgage, of \$51,043 80, which, as they become due, will be appropriated to the liquidation of the City Debt, as directed.

The expenditures for Schools show an increase over the preceding year of some \$3,000.

By an order of the City Council, the pay of the officers and members of the Fire Department has been increased, which accounts for the excess of expenditure over the preceding year. The contingent expenses of the Department, however, show a reduction for the same time.

The Police Department shows an increase of expenditure of \$1,473 28;

The cost of gas, fluid, lighting and repairs of Lamps, show a reduction of \$2,917 88;

For support of Poor there is a reduction of \$1,304 12;

For Highways, Bridges, and Sidewalks there is a reduction of \$8,710 84.

In 1855, the Surveyors of Highways ordered edge-stones to be placed in front of the estates of several abutters, under the authority of an act of the Legislature, entitled "An Act to regulate the Sidewalks in the City of Roxbury," approved March 26, 1855, at a cost of \$2,167 41. There has been received from sundry abutters, since January 1st, of the present year, the sum of \$342 52, and the remaining bills have been placed in the hands of the City Solicitor for collection.

According to the Report of last year, the cost of widening Washington Street, northerly side, was \$22,617 57. Expended during the year \$445 12. Making the total cost \$23,162 69. There is but one claim remaining unadjusted. For widening Washington, corner of Eustis Street, the cost heretofore was \$3,817 96. Expended during the year \$87 43. Making the total cost \$3,905 49. All the claims upon the City for this improvement have been liquidated.

The cost of widening Ruggles Street was \$2,148 18. Two claims remain unadjusted.

There was appropriated \$1,100 00 for constructing a drain in Cabot Street, and \$1,071 34 of the same has been expended. There has been received \$66 50 from abutters, and a much larger amount may be expected the coming year from others, who will doubtless avail themselves of the privilege of draining their estates into this main.

The cost of Reservoirs for the year, was \$258 56. This expenditure was entirely for repairs. Should the pipes of the Aqueduct Company be laid through our streets the coming season, an opportunity will be offered to obtain a better supply of water from Hydrants, which will obviate the necessity of constructing any more Reservoirs, except in such localities as can be supplied in no other manner.

By law, the proceeds of sales of lots or rights of burial in the Cemetery at Forest Hills, are yearly paid into the City Treasury, and kept separate from any other funds of the city, and subject to the order of the Commissioners, to be applied by them in the manner provided by law. For full details concerning the Ceme-

tery, reference may be made to the Annual Report of the Commissioners, which is appended.

The amount received into the Treasury from February 1, 1856, to Feb. 1, 1857, from sundry persons, for sales and grading lots, including balance on hand, was	\$23,420 20
And the amount paid upon the drafts or orders of the Commissioners for the same period, was	20,962 75
	<hr/>
Leaving a balance in the Treasury, Feb. 1, 1857, of	\$2,457 45

The Cemetery Debt, Feb. 1, 1856, was	\$24,000 00
Of which there has been paid during the year,	3,000 00
	<hr/>
Reducing the debt to	\$21,000 00

Annexed are statements of the unexpended balances of the appropriations of the previous year,—and the appropriations and transfers of 1856 ;—the details of the expenditures under their proper heads,—and the present balances of each appropriation,—schedule of the City Debt,—and a schedule of the Real and Personal Property of the City.

Also there will be found appended :—

Report of the Overseers of the Poor, including reports of the Superintendent and the Physician to the Almshouse ;
 Report of the Commissioners of the Cemetery at Forest Hills ;
 Report of the Commissioner of Streets ;
 Report of the City Registrar—Tabular statement of Births, Marriages and Deaths—Mortuary Statistics ;
 Report of the Chief Engineer of the Fire Department.

All which is respectfully submitted.

*The Debt of the Cemetery is kept separately from the ordinary City Debt, and provision is made for the payment of the same by the proceeds of the sale of lots in the grounds, as will be seen by the following section from the Act obtained from the Legislature:—

SECTION 4. "The proceeds of sales of lots or rights of burial in said Cemetery shall be paid into the City Treasury, to be kept separate from any other funds of the City, and subject to the order of said Commissioners, and such proceeds shall be devoted to the liquidation of the debt incurred in the purchase of the land for said Cemetery, and to the improvement and embellishment thereof, as aforesaid, under the direction of said board of Commissioners. And no other moneys shall be appropriated from the City Treasury by the City Council for such improvement and embellishment."

JOSEPH W. DUDLEY, *City Treasurer.*

Roxbury, February 12, 1857.

CITY OF ROXBURY, FEBRUARY 23, 1837.

The undersigned, Joint Standing Committee on Accounts, in pursuance of the provisions of the eighth section of the Ordinance entitled "An Ordinance establishing a system of Accountability in the Expenditures of the City," requiring them to audit the Account of the City Treasurer at the close of each municipal year, and as much oftener as they may deem expedient, hereby certify that we have examined and audited the within Account of JOSEPH W. DUDLEY, City Treasurer, and find the same correctly cast, and all payments and expenditures therein charged against the City, are sustained by the necessary vouchers.

We find that there has been received into the Treasury, at sundry times within the year ending January 31, 1857, the sum of *two hundred thirty-six thousand eight hundred thirty-six and 74-100 dollars*, which, with the balance on hand January 31, 1856, of *twenty thousand three hundred eighty-six and 36-100 dollars*, makes a total receipt of the year of *two hundred fifty-seven thousand two hundred twenty-three and 10-100 dollars*; and that there has been paid out from the Treasury during the same period, the sum of *two hundred thirty-five thousand eight hundred fifty-three and 36-100 dollars*, leaving in the Treasury January 31, 1857, a balance of *twenty-one thousand three hundred sixty-nine and 74-100 dollars*.

OF THE

O V E R S E E R S O F T H E P O O R .

ROXBURY, MARCH 1, 1857.

THE Overseers of the Poor of the City of Roxbury, respectfully submit their Annual Report for the past current year.

The Receipts for the Support of Poor from February 1, 1856, to February 1, 1857, were as follows :

Balance undrawn Feb. 1, 1856 . . .	\$1,584	39	
Received of Ezra Young for sale of articles		100	00
To cash of the town of Dedham for support of Paupers		17	50
To cash received of Warren Marsh for Board of Miss Healey		30	00
To cash received of Ezra Young from the town of Taunton		27	50
To cash received of Ezra Young from J. Livermore		45	00
To cash received of the Commonwealth for Pauper Account		194	93
Appropriation		5,000	00
			\$6,999 32

Expenditures.

For support of Poor from February 1, 1856, to February 1, 1857, . . .	5,879	07	
Transferred to Contingent Fund, 1856-57		376	32
Balance undrawn February 1, 1857		743	93
			\$6,999 32

It will be seen by the accompanying Reports of the Superintendent and Physician of the Almshouse, that the condition of that establishment is highly satisfactory. The number of inmates during the past year has not been greater than the year previous. The health of the inmates has been well provided for, only three deaths having occurred during the year. Every proper attention has been given to the wants and comfort of those of our citizens, who, when reduced to poverty through misfortune or sickness, have a claim upon the city for relief or support, which cannot be and should not be denied.

The officers connected with the Almshouse establishment have performed their duties faithfully and well, and to the entire satisfaction of the Board.

The expenses of the whole establishment for the support of the poor, form a considerable item in the City Expenditures,—but not greater than can reasonably be expected in a city as populous as our own, and where, owing to a large foreign population, there is, through a considerable portion of the year, a pressure and necessity for a very considerable amount of outside relief, a mode of rendering assistance, which, while wisdom dictates close investigation and careful discrimination of cases, humanity forbids us to withhold.

JOHN S. SLEEPER,
Chairman of Overseers of the Poor.

R E P O R T
OF THE
SUPERINTENDENT OF THE ALMSHOUSE.

ROXBURY ALMSHOUSE, JANUARY 31st, 1857.

To the Board of Overseers of the Poor of the City of Roxbury :

GENTLEMEN,—The time having again arrived for me to present to you my Annual Report of the Almshouse, I beg leave to present the following statements :

The number of inmates in the House at the commence-	ment of the year, February 1, 1856, 29	
Admitted during the year	112	
	——— 141	
Discharged	112	
Died	3

Now remaining in the house	26	
Number of births in the house this year	1	
Average number in the house	25	
Whole number of days State Paupers remaining in	the house during the year	386
Number of paupers sent to the State Almshouse from	this city the past year	86

Nine of the number admitted have a settlement in this city ; the remainder were State Paupers,—therefore, having no settlement within the Commonwealth, were admitted for temporary relief.

We have been highly favored the past year with very good health of the people who have been in the house ; for there has been but three deaths at the house during the year, and one of

them was a State pauper that was too sick to be sent to the State Almshouse, and lived but three days after being admitted to our house.

Cows	2
Horse Wagons, with Harnesses	3
Horse Cart, with Harness	1
Ploughs, Harrows, and other farming tools, in sufficient quantities for the use of the place.	

FURNITURE AND BEDDING.

Iron Bedsteads	25
Wooden "	6
Feather Beds	25
Under "	25
Pillows	90
Pillow Cases	125
Sheets	100
Bedspreads	75
Counterpanes, Blankets, and other Bedding in sufficient quantities.	

PRODUCE RAISED ON THE ALMSHOUSE LAND.

Potatoes	275 bush.
Carróts	6 tons.
Squashes	1 ton.
Cabbages, Turnips and other vegetables raised in abundance for the use of the House.	
Milk	1,000 galls.

The inmates have conducted themselves in a highly satisfactory manner, and have been willing to labor all they were able to.

The Physician, Dr. Streeter, has attended to his duties in a very gentlemanly and faithful manner and with good results.

For a further statement of the Medical Department, please see Physician's Report.

Respectfully submitted by your obedient servant,

EZRA YOUNG,
Superintendent of Almshouse.

R E P O R T
OF THE
PHYSICIAN TO THE ALMSHOUSE.

To the Board of Overseers of the Poor for the City of Roxbury :

GENTLEMEN,—The inmates of the Almshouse the past year have been comparatively exempt from diseases of an acute character : although nearly all of them have at different times required medical treatment, more or less protracted. The inroads upon the physical powers of the inmates, produced by deprivation of the comforts and necessaries of life, and other causes, previous to admission to the house, peculiarly predispose them to forms of disease, chronic and lingering in their nature. During the year there have been three deaths in the house—one of convulsions, a child, and two of consumption. One of the cases of consumption, a female, was not properly an *inmate* of the house, but was brought there only a day or two before her death. There has been one birth in the house. One case of small pox, (a State charge) and two of varioloid, have been the only cases of disease of this character during the year. Neither of these patients were inmates of the house.

The inmates have evinced a willingness to conform to such directions as have been found necessary either to preserve health, or, if sick, to assist in restoring them to their usual state of health. The unremitting kindness and attention to the welfare and comfort of the inmates, both in health and sickness, of the Superintendent and his wife, cannot be commended too highly.

Respectfully submitted,

JOSEPH H. STREETER,

Physician to the Almshouse.

Roxbury, January 31st, 1857.

R E P O R T

OF THE

CHIEF ENGINEER OF THE FIRE DEPARTMENT.

ROXBURY, FEBRUARY 2, 1857.

To the Honorable Mayor, Aldermen and Common Council :

The sixth section of Ordinance No. 34, regulating the Fire Department, requires the Chief Engineer to transmit annually, and oftener if required, to your Honorable Body, a correct statement of the condition of the Fire Department.

In accordance with the provisions of the ordinance, I submit to you my Annual Report, from February 1, 1856 to February 1, 1857, showing the number of Fires and Alarms in each month, with the loss and insurance on the same,—names of the Board of Engineers,—Members of the Department, with their ages and residence,—pay of the same,—condition of Houses and Apparatus,—list of Reservoirs and Hydrants, as also the Rules and Regulations of the Department.

The Department have been called out the past year,

From actual fires within the city	33 times.
“ false alarms	26 “
“ fires out of the city	19 “
	<hr/>
Total	78 “

From May 1, 1856, to January 31, 1857 :

From actual fires within the city	26 times.
“ false alarms	14 “
“ fires and alarms out of the city	8 “
	<hr/>
	48 “

Loss by fire, \$35,785 00. Insurance, \$16,446 00.

Last year, from May 1 to January 31 :

From actual fires within the city	49 times.
“ false alarms	16 “
“ fires and alarms out of the city	30 “
	—
	95 “

In consequence of the large number of alarms of fire out of the city, the Board of Engineers, immediately on their organization, passed a vote that no bell on any engine house should be rung for an alarm of fire out of the city, unless by order of an engineer. Every precaution was used by the Board, as well as by the City Marshal and his officers, to enforce this order. One person, a member of the Department, was discharged for violating the above regulation. When the services of the Department are required by any of our neighbors, they are always rendered, and the members of the Department rally as promptly to render our neighbors assistance as they do our city. The result of the enforcement of this rule respecting alarms of fire out of the city, is highly satisfactory. Last year, from May 1 to January 31, the Department was called out *thirty* times for fires and alarms out of the city ; while this year, in the same time, they have been called out but *eight* times, and at *three* of those alarms the Department were sent for.

On assuming the duties of Chief Engineer in May last, I was impressed with the belief that the ordinary expenses for the year would be small—or at least would be kept within the limits of the appropriation ; but the result has been otherwise. The several Engine, Hose, and Hook and Ladder Carriages have been thoroughly repaired, and painted when found necessary. One bill of repairs, amounting to some four hundred dollars, contracted previous to my entering upon the duties of this office, is charged, in the expenses of the Department, the present year.

The details of repairs and expenses briefly have been as follows:

Engine No. 1, was sent to Waterford, New York, and new brakes substituted for the old ones, (which render the engine more portable and much lighter,) agreeably to the recommendation of a former Board of Engineers, and with the consent of the Committee on the Fire Department ; at the same time all necessary repairs were made to the engine. No repairs have been made upon the house.

Engine No. 2, maliciously damaged by a person not connected with the Department, has been thoroughly repaired and painted. The house is in good order, and no repairs were required.

Engine No. 3, kept as a relief engine, has had new Suction Hose, and is in good order.

Engine No. 6, has been thoroughly repaired and painted, and is in good order. These repairs were ordered by my predecessor. The house has been partly new silled, and new floors have been laid in the lower story. This story has been painted. A new Hose Tower has been erected the past year; and a new floor in the Steward's room is required.

Engine No. 7 has been thoroughly repaired, and partially painted. The interior of the house has been painted. A Hose Tower has been added to the house.

Hydrant Carriage has been repaired and painted.

Hook and Ladder Carriage has also been repaired, as also the ladders, axes, &c. belonging to the same. Some slight repairs have been made to the house.

Two hundred feet of new Leading Hose have been purchased for the use of the Department.

Two Reservoirs, built under the direction of a former City Government,—one on Smith Street, and one at the corner of Greenville and Winthrop Streets,—at an expense of some \$1,600, were found to be defective and of no service. They have since been repaired and filled, at an expense of \$300, and are now in good order.

The Engines and Apparatus of the Department are now all in good order; and unless some unforeseen accident should occur, the bills for repairs the coming year will, doubtless, be comparatively small. The houses of Engines Nos. 1 and 7, Hook and Ladder house, with the house of the Hydrant Co., require painting outside. The house of Engine No. 1, and Hook and Ladder Co., will require new floors and other repairs the coming Spring.

The house occupied by the Hook and Ladder Co. is entirely unfitted for the deposit of the carriage, it being too short, and in every way inconvenient, and requiring double labor of the Steward to take the proper care of the same. I would most respectfully recommend that a one-story building be erected for the proper accommodation of this important part of our apparatus.

The house occupied by Hydrant Co., No. 1, from its being situated over the water, is very damp and cold, and unfitted for the purpose for which it is used.

Two Reservoirs were recommended to be built by the Board of Engineers the past year,—one at or near Sudbury Street, and one on the Point, in the vicinity of Curtis's planing mill; but, owing to the ground not being adapted for that purpose, in one case, and the demands of owners and abutters in the other, neither of them has been built.

Application was made to the Water Board of the City of Boston, by a committee of the Board of Aldermen, for permission to insert one or more hydrants on Tremont Street, between Franklin Place and Ruggles Street; but the request was not granted. They were willing, however, to lay a service pipe from Franklin Place to Ruggles Street—a distance of about six hundred feet—sufficient for two hydrants, which would be of much more service to the city than reservoirs. I would recommend your early attention to this source of obtaining water in that locality. One new hydrant has been inserted (of great capacity) on Tremont Street, at the corner of Texas Avenue, and is of much importance in that vicinity.

The large number of wooden buildings erected, and being erected yearly, in our city, increases the danger of fire. There are some localities where a scarcity of water exists, and where, if a fire should occur, the efforts of the Department would be of little avail. The importance of having a better supply of water, either in reservoirs or from hydrants, cannot be over estimated. Our present number of reservoirs and hydrants is, in my judgment, inadequate to the wants of the city.

It is understood that the Jamaica Pond, situated within the limits of West Roxbury, with the rights and franchise of the Aqueduct Company, has been purchased by some of our citizens, for the purpose of supplying the lower part of the city with pure water. I would respectfully direct your attention to the importance of locating a large number of hydrants along the line of the pipes in the several streets through which they may be laid. The proprietors of the Pond, I am informed, have expressed a willingness to meet the city in a liberal spirit, for furnishing an ample supply of water for the extinguishment of fires. The expense of inserting hydrants is trifling, compared with the cost of the construction of reservoirs, and their superiority over them in affording an ever-ready supply, is so clear to the minds of every one, that it needs no demonstration. The proprietors kindly offered the use of the pipes for the Department, until the Spring, free of charge; but as it is earnestly hoped that some permanent arrangement will be made with them as soon as possible, I deemed it unnecessary to communicate their offer, or to recommend any action on the subject.

The condition of the Department was never better than at the present time. Harmony prevails among all its members, good order, a prompt response to every call of the bell, and a cheerful compliance with all the rules and regulations of the Department. They very justly merit the approbation of the Government and of the citizens.

I have now presented every thing to your consideration, that I regard of importance to the welfare of the Department, as well as such suggestions as, in my judgment, will tend to afford a greater security from fire to our city. If, by the constant devotion of my best endeavors to discharge my duties, I have merited your approbation, I shall feel that the labor, time, and sacrifice of personal comfort it has caused me, have not been thrown away. You entrusted me with responsible duties, and my proudest boast will be, to know that I have not disappointed your expectations, or suffered a trust, involving great responsibilities and of such importance to the future welfare of our city, to have failed in my hands. To the Committee on the Fire Department, who have sustained me in the discharge of my duties and promptly acted upon my communications, I would tender my thanks. To the City Marshal and his assistants, who have always been prompt in the discharge of their duties while acting as Fire Police, I would also tender my thanks. To the Board of Engineers, who have been with me on all occasions, I would express my obligations to them, and am proud to be able in this public manner, to bear testimony to the faithful and efficient manner in which they have performed their duties. During the term of office yet remaining to me, no effort of mine shall be wanting to make the Department worthy the confidence the public repose in it.

Respectfully submitted.

SAMUEL F. TRAIN,
Chief Engineer.

Two hundred and fifty-two persons have been provided with lodgings during the year.

The Police Department the past year has consisted of myself and eight Assistants, and two Night-Watchmen. Four of the Assistant Marshals are on duty every night, as watchmen; making the whole force on duty at night, six men. The City is now divided into two sections,—three men to each section. I would suggest the propriety of having the City divided into four sections, and an increase of two night watchmen to the present force, thereby rendering more efficient service to the inhabitants. The territory is so large, and the distance to be travelled by the watchmen so great, that they cannot go over the ground as often as the public safety seems to demand, with the present force. At times, it is impossible for them to visit all parts of the city during the night, in consequence of their being confined to certain localities requiring their constant attendance, thereby leaving large and valuable portions of the City unprotected.

The present police have acted as Truant Officers. They have been called many times by the teachers of our public schools to look after truants and absentees from school, which duty has been strictly attended to, with good results.

Much service has been rendered by the police that does not appear upon record,—such as abating nuisances, attending fires, &c., which has taken much time and labor, the most of which has been done without any extra expense to the City.

During the past summer there were appointed six persons, who acted as special police on Sundays during the fruit season, for the protection of orchards, gardens, &c., in the rural parts of the

City. From the small number of complaints from the inhabitants of the City, and the great number of depredations in the adjoining towns, we have good reason to believe that the amount paid for their services was not misapplied.

The vigilance of the police has, in a measure, been able to secure the observance of the law relative to the Lord's day, as far as pertains to the keeping open of shops and places of resort for idle and dissolute persons.

In regard to arrests, you will notice that a large proportion were for the crime of drunkenness. As a preventive, I have none within my reach. It is a well-known fact, that in almost every shop, and many places used as dwellings, intoxicating liquors are kept for sale; but they are managed in such a manner that prosecutions cannot avail much in suppressing the traffic. The class of persons frequenting such places are those whose testimony in a Court of Justice would not be reliable.

There is another class of crimes to which I wish to call your attention, viz., "*Larcenies*." Many of the arrests made for the crime of larceny, have been committed by boys from ten to sixteen years of age; the most of which have been "*petty larcenies*" of old junk, consisting of old iron, lead, brass and copper, taken mostly from unoccupied buildings, and which is encouraged by a certain class of persons, who go about the City collecting every thing in the shape of *junk*; and, I am sorry to say, not in violation of any Ordinance of this City regulating the same.

The duties of the police, in trying to enforce the Ordinance relative to the Sanitary Regulations of the City, are much increased by the insufficient accommodations for drainage. Many of the dwelling-houses located on the low grounds are not provided with drains or cesspools, thereby obliging the occupants to throw upon the surface of the ground all the waste water which should be carried away by drains, much of which finds its way into the streets, lanes, &c., in direct violation of the Ordinance pertaining thereto.

There are certain nuisances existing in the City, to which the attention of the Board of Health has been frequently called, one of which is now under judicial investigation, viz., the "*Chemical Works*;" another—"Ward's"—if not as injurious to health, is equally as annoying to the inhabitants residing within the vicinity, from the frequent emanation of putrid and foul air, which arises from the decomposed animal substances deposited on and about the premises.

In submitting this report, I wish to notice the efficient and gentlemanly manner in which the members of the police have dis-

charged their duty during the past year, which I think has been done in a manner highly creditable to themselves, and to the general satisfaction of the public.

I would here tender my acknowledgments for the confidence reposed in me, by placing me in the office I now hold, and the repeated acts of kindness during the past year.

Respectfully submitted.

A. S. PARKER,
City Marshal.

REPORT
OF THE
COMMISSIONERS
OF
FOREST HILLS CEMETERY.

IN conformity to the fifth section of "An Act relative to a Public Cemetery in the City of Roxbury," the Commissioners respectfully submit their

NINTH ANNUAL REPORT.

This annual record which it devolves upon the Commissioners to make in relation to Forest Hills, though in its detail of facts not very unlike those which have preceded it, is still a record of progress in the important work committed to their supervision.

With no abatement of interest or energy, the work of beautifying and fitting the grounds for the sacred purpose to which they are consecrated, has been steadily prosecuted in all its departments through another year. And in the progress of this work, nothing is made more evident, aside from the exceeding natural beauty of the locality and its peculiar fitness for the high and sacred ends to which it is appropriated, than the existing and growing necessity for such a provision to meet the public sentiment as well as the wants of the community.

LABOR. About thirty-five men have been employed in the various departments of labor upon the grounds for nine months of the year, and a less number the remaining three.

LOTS PREPARED. During the year one hundred lots have been graded and sodded, the outline defined by stone posts and the borders set with trees and shrubs.

TOMBS. Three family tombs have been constructed.

AVENUES AND PATHS. The loam has been removed from about 1600 feet of Avenues, and from about 850 feet of Paths, which

have been relaid with stone and gravel in the same manner as heretofore.

LAKE HIBISCUS. To prevent the possibility of accident, a fence has been constructed on the southerly side of Lake Hibiscus, consisting of stone posts connected by straight iron bars. The grounds also in the same vicinity, on the borders of the Lake, have been graded and sodded, and planted with trees.

MONUMENTS, &c. Besides monumental scrolls and slabs of various forms, many of them exceedingly neat and tasteful, there have been erected by the proprietors of lots, thirty monuments, costing from \$150 to \$1200 each.

FENCES. Fifty lots have been enclosed by iron fences.

INTERMENTS. The number of interments during the year in private lots and in the Field of Machpelah has been 475.

LOTS SOLD. One hundred and one lots averaging $291\frac{3}{4}$ feet each have been sold during the year. And in the Field of Machpelah 142 graves,—all that remained unsold at the commencement of the year,—have been disposed of.

“FIELD OF EPHRON.” It having become apparent that the unsold graves in the Field of Machpelah would not probably more than supply the demand for the year, the Commissioners, early in the season, designated a lot in the northerly part of the Cemetery to be prepared for the same purpose. Entering the Cemetery by the Egyptian Gateway, this lot is on the right. It is to be trenched and graded for separate graves to accommodate such persons as may not wish to purchase a whole lot. To this place the Commissioners have given the name “Field of Ephron.” See Gen. 23 : 17. Here the grounds have already been prepared for 200 graves, which are now ready for sale. The border on the northerly side has been graded, leaving the young growth of trees with which it was studded, and when the whole shall have been graded and the borders adorned with trees and shrubs according to the present design, it will become a beautiful and attractive portion of the Cemetery. In this “Field of Ephron” there will be space for not less than 1200 graves.

LOTS FINISHED. There are thirty-one lots now graded and finished with stone posts and sodding, which are ready for sale. Fifty-one other lots are trenched and nearly completed, which will be finished early in the spring to meet the demand for the coming year.

The Commissioners have paid, during the year, \$3000 of the principal of the notes given by the City for the purchase of land for the Cemetery, which added to the sum of 12,894 67, before paid, amounts to \$15,894 67. The present debt for Cemetery grounds is \$21,000.

The Receipts and Expenditures for the year have been as follows :

This statement shows that though our enterprise is comparatively in its infancy, a large amount of labor has already been bestowed upon Forest Hills. But it is not labor unappreciated. The public sentiment of the community approves the outlay, and the heart honors the results of it, as an offering fit and sacred to its deepest affection. It matters little comparatively to the departed, what disposition we may make of the dust they have left behind them, whether in the repulsive vault or amidst living fragrant flowers we lay it down to rest. It is not for the dead with any hope of benefitting or making more peaceful their last sleep, that we throw around the sepulchre the beauty and the fragrance of Forest Hills ; but for the living,—as the offering of a cherished

and undying affection, which would linger still at the sepulchre, as the two Marys by that new tomb in Joseph's garden, with living memories of the departed rendered pleasant and not repulsive by surrounding emblems of a resurrection and a life to come.

And Forest Hills is become an impressive preacher of great and salutary truths. Nine years have gathered to its quiet bosom the loved and the honored from many of our households. The aged and the young alike sleep in its shady retreats. And the past is the mirror to the future. We prepare a place for the loved and the honored whose presence is yet the light and the joy of our homes;—a place, however, whose surroundings shall all teach us that the grave is not our home, and shall point significantly to that land where is the "tree of life," and where "there shall be no more death, neither sorrow nor crying, neither shall there be any more pain; for the former things are passed away."

CEMETERY NOTICE.

For the information of those who do not know already, it may be well to state, that visitors can take the Dedham train of cars, and stop at the Forest Hills station, which leaves them within five minutes' walk of the Cemetery. Any information relative to the Cemetery can be obtained of DANIEL BRIMS, Superintendent at the grounds; JOSEPH W. TUCKER, City Clerk, City Hall, Roxbury; or either of the Commissioners.

A N A C T

In addition to An Act relating to a Public Cemetery in the City of Roxbury.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, as follows :

SECT. 1. The board of commissioners of the rural cemetery in Roxbury, elected by the city council, pursuant to an act approved March 24, 1848, are authorized to take and hold any grant, donation or bequest of property, upon trust, to apply the same, or the income thereof, for the improvement or embellishment of the said cemetery, or for the erection, repair, preservation or renewal of any monument, fence or other erection, or for the planting and cultivation of trees, shrubs or plants, in or around any lot, or for improving the said premises in any other manner or form, consistent with the purposes for which said cemetery is established, according to the terms of such grant, donation or bequest. And whenever any such grant, donation or bequest, or any deposit shall be made by the proprietor of any lot in said cemetery, for the annual repair, preservation or embellishment of such lot and the erections thereon, the said commissioners may give to such proprietor, or his representative, an agreement or obligation, in such form and upon such terms and conditions as they may establish, binding themselves and their successors to preserve and keep in repair said lot forever, or for such period as may be agreed upon.

SECT. 2. Any sums of money, so received by said commissioners, shall be invested by the city treasurer of Roxbury, under the direction of said commissioners, in public stocks or mortgages of real estate, and all such property, received under the provisions of the foregoing section (unless other provision is made by the terms of any such grant, donation or bequest), shall be made under the charge of said city treasurer, but shall always remain separate from and independent of any other moneys or property belonging to the city of Roxbury, and free from the control of the city council. And the income of such fund, or funds, shall be received by said treasurer, subject to the order of said commissioners, and shall be appropriated by them in such manner as shall in their opinion, best promote the purposes for which said grants, donations, bequests or deposits are made.

SECT. 3. The city of Roxbury shall be responsible for the good faith of said commissioners, and the treasurer of said city, in the execution of any trust which they may assume pursuant to the foregoing provisions. But said commissioners shall not be liable to make any renewal or reconstruction of any monument, or other erection, on any lots in said cemetery, unless such liability shall be expressed in the agreement given by them as aforesaid, or in the terms and conditions under which they accept any grant, donation or bequest.

SECT. 4. This act shall be void, unless the city council of Roxbury shall accept the same, at a meeting of said council called for that purpose, within thirty days after its passage.

SECT. 5. This act shall take effect from and after its passage. [*Passed Feb. 25, 1852.*]
